As head technician, I want you to know, at Pan-Am Dental we feel the most important aspect of a laboratory is customer relationship, and communication is our main focus. Our experienced technicians are available to take questions about a case, call for implant parts, whatever the case may be, we are here to service your needs. Make a note on your first case to speak with one of us, and we will give you a call. We want you to have the same contact with a technician that you would on a local basis. That's our goal!

Sincerely,
Rembert Roux
